

TEACHERS AND SCHOOL EMPLOYEES

**If you are injured or assaulted at work,
YOU have rights!**

Assaults against teachers and school employees are on the rise across the country and are very serious matters. If you are assaulted by a student, you are entitled to collect workers' compensation benefits, including payment of medical bills, off work benefits and a final settlement for your injuries. Don't let anyone tell you otherwise. It is your legal right under Illinois law.

Taxman, Pollock, Murray & Bekkerman, LLC is an Illinois injury law firm with decades of experience handling teacher assault cases in addition to all types of work-related accidental injuries all over Illinois. They are currently the fastest growing injury law firm in Illinois, and fight for injured union workers, including teachers, throughout the state.

If you, or a co-worker you know, has been assaulted at school, please consider attending this important training. As you know, the school district will have lawyers on their side. To stand a fighting chance, you need to have someone to look out for your rights as well.
